While separating two horses that were fighting in the stables, one of the animals kicked him in the back of the head, knocking him down and bruising him up considerably. Taxes—Better Pay Them Now.

The people are remarkably slow about paying taxes this year. Not more than one-tenth of the state and county taxes have thus far been paid. County Treasurer Blackmon is receiving only about \$500 a day, when the receipts should be \$2,000 daily in order to collect all on the tax books before the time for payment expires, on the 31st instant. Better pay your tax now, while you have the money, and avoid the rush later on.
